

CPCI Recognizes Excellence in the AEC and Canadian Precast Concrete Industries

October 30, 2018 - Ottawa, Ontario - The Canadian Precast/Prestressed Concrete Institute (CPCI) is pleased to announce the recipients of the 2017-2018 CPCI Annual Awards for industry partners and for CPCI members.

Held annually at the CPCI AGM, the Awards celebration promotes the precast concrete industry within the regions of Canada, and winners are chosen from the region where the event is held and this year, the AGM was held in Kelowna, BC. The awards recognize professionals in the fields of engineering, architecture and real estate development for their outstanding contribution to the Canadian precast prestressed concrete industry in education, innovation, sustainability and change; for positive leadership, industry-altering development and expansion; and for accelerating the growth of the Canadian precast prestressed concrete industry.

CPCI 2018 PARTNERS AWARDS OF EXCELLENCE WINNERS

This year, CPCI selected two British Columbia firms as the recipients of the **2018 CPCI Engineering Excellence Award**: All-Span Engineering & Construction Ltd. and Herold Engineering Limited.

Based in Delta, BC, **All-Span Engineering & Construction Ltd.** has a team of engineers who embody a wide scope of expertise and diverse backgrounds. They have been providing engineering services to Canada and the USA since 1989. All-Span Engineering has a wide range of experience in architectural services, as well as bridge, marine, construction and industrial engineering services.

The other recipient of the Engineering Excellence Award, **Herold Engineering Limited**, is a well-diversified Vancouver Island based consulting civil and structural engineering company. They are involved in a broad variety of building, municipal, transportation and marine projects throughout British Columbia with the majority of their work on Vancouver Island.

CPCI is pleased to announce that Revery Architecture Inc. was selected as the recipient of the **2018 Roy Willwerth Precast Concrete Architectural Recognition Award**. **Revery Architecture Inc.**

(formerly Bing Thom Architects) has earned a global reputation for buildings for the arts. The office has been catalytic in the transformation of Surrey - from Surrey Central City's unprecedented hybrid of retail, office and university, to the dramatic City Centre Library, the light-filled Guildford Aquatic Centre and the impressive Simon Fraser University Sustainable Energy Engineering Building (SE3P).

This year, the **CPCI Real Estate Development Award of Excellence** was awarded to Worman. **Worman** is an owner/developer based in Kelowna, BC. Since 1992, they have been working tirelessly to set a new standard for modern construction with enduring features that are unique and timeless. Worman has worked on multiple commercial and residential projects in Kelowna, all designed to enhance the community, the neighbourhoods, and provide a meaningful experience for those who spend time in their buildings.

CPCI MEMBER HONORARY AWARDS OF DISTINCTION

Each year CPCI recognizes members for their outstanding contribution to industry efforts. The honorary awards of distinction were presented during CPCI's Members Awards Luncheon on October 17th during CPCI's AGM in Kelowna.

The **2017 Fellow Award** was presented to **Mr. Wayne Kassian** from Kassian Dyck and Associates. Wayne provides over 33 years of diverse structural experience in the design of structures, and has extensive experience with precast concrete. He is a professional engineer with registration in B.C., Alberta, Manitoba, Nova Scotia and New Brunswick. Wayne has been involved in a number of committees with CPCI, PCI and CSCE to name a few. As the Director of the Accredited Certification Organization of the CPCI and CPCQA Certification program for the last 10+ years, Wayne has been a key contributor to the success of Certification for our Institute members. Wayne was also the recipient of the CPCI John Fowler Award of Distinction in 2011/2012. *(Photo) Wayne Kassian accepts the 2017 CPCI Fellow Award*

The **Associate Member Award of Excellence** was presented to **US Formliner**. US Formliner is represented in more than 65 countries worldwide. US Formliner offers more than 200 ready-made designs with imaginative, stone, brickwork, wooden, plastered, ribbed, abstract as well as functional patterns. Ray Clark and Sonny Arora from US Formliner have been instrumental in the development of CPCI's Student Education Committee and its initiatives namely the Precast Studio Program, the Scholarship Program and promoting the Precast Concrete Lesson Plans. They have also played a key role in developing and implementing CPCI's Marketing Plan for the Transportation and Construction Marketplaces. *(Photo) Ray Clark accepts the 2018 Associate Member Award of Excellence*

The **CPCI 2017 John Fowler Award of Distinction** was presented to **Mr. Mel Marshall**. Since 1980, Mel has been the Engineer, Owner and President of Mel. C. Marshall Industrial Consultants Inc., in Delta, BC. He provides engineering assistance to concrete pipe and precast concrete manufacturers and represents companies that manufacture equipment and other items for the concrete industry. Mel has taught hundreds, perhaps thousands, of precasters the fundamental skills required to manufacture quality concrete. His contributions to teaching and training are invaluable to the precast industry. Mel has written technical handbooks, production training curriculum, and plant certification standards. In 2007, Mel Marshall received NPCA's highest honor, the Robert E. Yoakum Award. *(Photo) Mel Marshall receives the 2017 John Fowler Award of Distinction*

CPCI wishes to congratulate all winners and looks forward to honouring more deserving firms and individuals at next year's AGM being held October 8-10, 2019 in Regina, SK.

About the Canadian Precast/Prestressed Concrete Institute

The Canadian Precast/Prestressed Concrete Institute (CPCI) is a national non-profit organization whose purpose is to advance the design, manufacture and use of structural, architectural and specialty precast/prestressed concrete in Canada. CPCI's mission is to advocate for sustainable development in the industry.
