

CANADIAN PRECAST CONCRETE QUALITY ASSURANCE (CPCQA) CERTIFICATION PROGRAM

November 29, 2019

TO: ALL CPCQA CATEGORY I (STRUCTURAL/ARCHITECTURAL + DRAINAGE) and CATEGORY 3 (DRAINAGE) PARTICIPATING PLANTS, QAC members, and CPCQA Members

RE: CPCQA Managing Director

The Canadian Precast Concrete Quality Assurance (CPCQA) Certification Program is the leading program for certification of superior quality assurance capabilities in precast concrete in Canada. The start-up success of CPCQA since its late 2017 inception has involved support, cooperation, and ongoing constructive feedback from many different groups, not limited to the participating plants, ACO, QAC, and CPCQA and member association boards.

Our managing director since Jan 2018, Andrea Boddy of Andrea Boddy Consulting has also been part of this success. As the “dust has settled” from the challenges of bringing CPCQA to life for the first 2 years, Andrea has communicated to the board that she won’t renew her contract past March 2020 as she moves on to the next strategy – marketing – sales growth – change management challenges for her various clients at ABC Inc. She passes on how pleased and honoured she has been to contribute to the CPCQA evolution / change management success to date, and thanks all involved for their support and contributions.

The Board is pleased to announce Bill Leblanc has accepted the contract of Managing Director, CPCQA, effective March 1, 2020. A civil engineer by education, Bill’s career has given him experience in multiple Western Canada markets in consulting, designing, selling, and producing precast concrete, in both hands-on and leadership roles. He has been active in committees and board/chair roles in industry associations such as CPCI, ACI, CSC, and PCI. Bill has managed all types of precast concrete projects over his career and looks forward to leveraging this vast experience for the CPCQA program.

The CPCQA board, and CPCQA’s 2 member associations, CCPPA and CPCI, are pleased with the CPCQA evolution to date and look forward to where the program will elevate the whole industry in the future. The board wants to specifically acknowledge Andrea Boddy’s great work, dedication, and professionalism in setting up the organization. We thank her for the important role she has played and wish her well in her future endeavours.

During January and February, Bill will gradually transition with Andrea such that no interruptions in management service are experienced from CPCQA. We wish Bill well in his new role.

We thank you for your support as we make this transition together, and as always, we welcome your feedback.
